F3

PRODUCT NAME: F3 Warewash Rinse Additive

PRODUCT INFORMATION:

This product is a Rinse Additive liquid and should ONLY be used in a dishwashing or glasswashing machines that has an internal or external dosing system.

DIRECTIONS FOR USE:

F3 Warewash Rinse Additive is a commercial product and should be primarily used in a dishwashing or glasswashing machines that have an internal or external dosing system or internal reservoirs.

It is generally recommended to be used in quantities varying from 0.8 to 1.2 mL of additive per litre of rinse water.

The quantities may vary according to individual requirements. The quantities may need to be increased in areas where the water is exceptionally hard.

For best results:

Ensure rinse jets are free from blockages and scale build up (refer to F4 Descaler)

* Ensure rinse water is between 82 - 88 degrees for effective sanitation and fast drying

* Use in conjunction with F2 Warewash Detergent
